

Notice of Exception - *Certified Sustainable Beef Framework*

November 18, 2020, Calgary AB. – After careful consideration, due to the Covid-19 pandemic, the Canadian Roundtable for Sustainable Beef (CRSB) has issued an extension to the temporary exception for all Certification Bodies.

Under the *Certified Sustainable Beef Framework*, certification would normally be conducted on-site by independent auditors. These auditors work for 3rd party Certification Bodies approved by the CRSB.

This temporary exception allows for auditing to the Sustainable Beef Production Standard and Chain of Custody Requirements, to be conducted remotely, at the discretion of the Certification Body. For situations that do not allow for an on-site or remote audit to be completed, a six-month extension may be granted for operations requiring recertification.

This exception will remain in effect until June 30, 2021, or until withdrawn by the CRSB, at its discretion.

Exception

Certified Sustainable Farm Audits

At the discretion of the Certification Body (CB), an on-site certification may be replaced with a remote audit where necessary. If an onsite audit or remote audit is not viable, the audit may be postponed, and an extension may be granted for operations requiring re-certification onsite audits.

Chain of Custody Audits

On-site chain of custody audits may, at the discretion of the Certification Body (CB), be replaced with a remote audit. If an onsite audit or remote audit is not viable, the audit may be postponed, and an extension may be granted for operations requiring recertification on-site audits.

Certified Sustainable Processing Plant Audits

On-site processing plant certification audits shall be postponed until further notice.

The CRSB will continue monitor the situation and communicate any further updates.
